General Comment

I feel this is wrong....over the years I have learned to trade options in a way that actually reduces the risk instead of increasing risk. Having the privilege to trade options in an IRA account is a major advantage for retirees and those close to retirement. I think you would find that the majority of people doing this trading are quite experienced in what they are doing. This has helped me increase my retirement account and still does today.

Please don't let this go thru and help the AMERICAN worker earn his retirement and keep earning long after he/she retires.

sincerely
